

# Vi Nguyen

## Software Developer

Front-end focused software developer with over 15 years of experience and a passion towards creating seamless web applications and enhancing user experience.

## Experience

### Steersman Company • Deerfield, IL

Senior Software Developer

Dec 2015 – Apr 2023

- ↳ Transformed designs and wireframes into high-quality, cross-browser compatible, and mobile-responsive code, ensuring optimal user experience
- ↳ Developed and maintained code, adhering to best practices for development life cycles including coding standards, code reviews, and source control management using Bitbucket and Git
- ↳ Collaborated with colleagues in a small startup company, providing expertise in technology and assisting with integrations and UI/UX design concepts
- ↳ Co-architected scalable web application for ecommerce platform using React, NextJS, Sass, REST API and OpenSearch
- ↳ Implemented and maintained module customizations for Odoo ERP & CRM software using Python, XML, jQuery, Sass, and PostgreSQL
- ↳ Achieved exceptional user experience rankings on Google's PageSpeed Insights, with average scores of 80% for performance, 97% for SEO, and 96% for accessibility and best practices
- ↳ Contributed to successful launches of 20 web applications, including ecommerce stores, WordPress sites, company sites, college course catalogs, and a customized Odoo theme
- ↳ Served as primary front-end developer for a diverse portfolio of clients across various industries, including scientific parts and equipment, specialty retail, and auto parts, in addition to Steersman's company website redesign project
- ↳ Assisted in the development of headless responsive WordPress blogs for high-profile clients such as Quill and Staples UK for customer engagement
- ↳ Implemented a custom CMS Odoo module, empowering clients to easily add modular elements and features to their website pages

### OpticsPlanet, Inc • Northbrook, IL

Software Engineer

Aug 2012 – Dec 2015

Web Developer

Jun 2008 – Aug 2012

- ↳ Developed and maintained new features and themes for the company's ecommerce sites and internal intranet portal, utilizing PHP, HTML, CSS, JavaScript, jQuery, and AJAX
- ↳ Executed successful projects and features of varying scales within tight deadlines, including the launch of new ecommerce sites and creation of impactful single landing pages.
- ↳ Implemented SEO semantics, microdata, and schema markup to drive significant improvements in search engine visibility, achieving first-page rankings on Google, resulting in increased website traffic and boosted sales
- ↳ Worked together with a team of six and a product manager via Agile to solve business needs, ensuring seamless project deliveries
- ↳ Collaborated with in-house and remote teams, including engineers, marketing professionals, project managers, designers, and QA testers, offering technical knowledge if necessary
- ↳ Onboarded new junior developers, providing guidance on front-end development practices and workflow, and contributed to the hiring process through conducting interviews for prospective employees
